

## BOT – BUILD, OPERATE & TRANSFER

Understanding the present market scenario, keeping in view the area of concentration and adhering to the sketched out thumbnails, Graphtech BPO has been approached by several willing clients who wish to avail the option of BOT. The term BOT holds us responsible for the formation, establishment, operation & hand holding in the entire agreed tenure.

Now here is the path/deviation that you had been longing for, for your most awaited & desired roadmap to a successful future. Make the possible turn into reality with the expertise of Graphtech Bpo.

### Common hurdles faced during company formation:

1. Formation / Registration / Validation Hassles (For company formation as Pvt. Ltd/Ltd/Proprietorship firm) - Lengthy & time consuming procedures, legal formalities & documentations, above all right information.

Company orientation & recognition – Company website preparation, domain name registration & Logo.

2. Line of Business/Service Vertical – Client Orientation, Client Origination, Center & Client Vision, Center & Client Objective, Center & Client Profit Maximization Calculations.
3. Technical Setups – Availability of technology, its inspection & specifications for the suitability of the purpose & its utility for the objective.
4. Operations/Implementation – Adhering to the client's Service Level Agreement. Achieving optimum utilization of the available resources with proper calculations towards profit maximization. Quantitative/Calculated Human Resource forecasting has been the most competitive aspect due to the high attrition rate prevalent in the industry.
5. Outcome – The difference of the projection to the outstanding adhering to the risk factors prevailing in the specified industry.
6. Roadmap - The way to success.
